Overall camp was a good week, with not many issues. PA system was bad, no one could hear announcements. Jerry said we could use his PA system. Have orientation somewhere else. Schedule programs, and try not to overlap activities. Opening night could be a pool party, we would need to find a life guard, with maybe a movie with pool party. Schedule a little more time between activities, for personal cares, etc. Where are defibulitzers, nurses should know where they are. If you here about anyone drinking it should be reported, to a board member, president, or camp director.

Summer Camp August 1-7, application available March 14, deadline May 9, confirmations June 6.

Start thinking about ideas for summer camp. Kickoff in the spring, something that gets everyone involved. Applications could be filled out at that time, have laptops available. We need committee's to help with activities at camp, and also help the camp coordinator. Committee's like social events, fundraising, camp planning. Tom & Erica will come up with ideas and see what committees we need.
